

## TSI Online Training - 2 Modules Available NOW

Training courses, workshops, conferences, seminars, are all very valuable tools for career development and keeping up-to-date with the latest industry developments. We all want to stay on the cutting edge, especially in this tumultuous economy. However, often the expense of travel and time out of the office, stand as barriers to professional education.

- » **Customise** your training to suit your needs
- » **Learn** on your time
- » **Experience** live training anytime
- » **Access** anywhere in the world
- » **Respond** to the market with your new skills

The Steel Index is launching a series of online workshops utilising the latest web technology to provide you with a workshop atmosphere from the convenience of your own desk.

**don't risk it.  
get the right information.**
